

RECYCLING WORKSPACE AND TRAINING CENTER

Empowering local fishermen affected by the Wakashio Oil Spill

RECYCLING HUB
with plastic
recycling machines

Offering employment and
entrepreneurial training
for people affected by the
Wakashio Oil Spill

Making plastic
recycled products
and sport
equipment

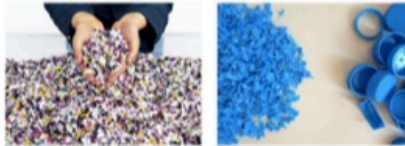

Awareness and
Education about plastic
pollution through sport
activities and
workshops

THE RECYCLING MACHINES

SHREDDER PRO

This double axis machine is able to shred up to 50 kg of plastic every hour depending on the desired flake size.

SHEET PRESS

This machine can make multiple sheets (1x1 meters) per day recycling around 20 kg of plastic per sheet.

EXTRUDER

Plastic flakes are heated and injected into a mould. It's a relatively quick process well suited for creating productions of small objects.

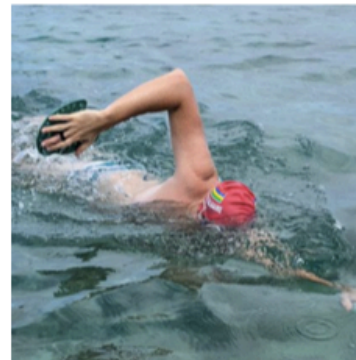

**A SEMI INDUSTRIAL
& LARGE VOLUME
RECYCLING
WORKSPACE**

MAKING SPORT EQUIPMENT

Recycled rock climbing grips for walls.

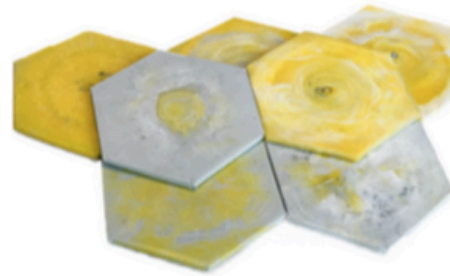

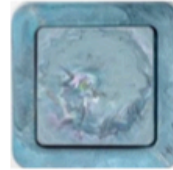

Recycled swimming paddles.

Beach tennis racquets and other equipments, including kitesurf fins.

OTHER PRODUCTS

EDUCATIONAL ACTIVITIES

Environmental Stewardship Activities

Promotion of Physical Activity ;
Plastic collection by bike

Mangrove Rehabilitation and Restoration

Beach & Mangrove Clean Ups

TARGETED LOCATION

Pointe Jerome Youth Center - Actual House + 1 container

CLIMATE IMPACT

WE SAVE
466,659 TONS OF
CO₂EQ PER YEAR

FISHERMEN EMPOWERED
EDUCATION & AWARENESS
PLASTIC SAVED IN
OCEANS
MANGROVE
REHABILITATION

BEHIND THE PROJECT

Alicia Rountree, Mauritian, healthy-living activist, founder of Alicia Swim, a sustainable swimwear brand using textile made from regenerated fishing nets and plastic from the sea. The brand sponsors the Mauritius Marine Conservation Society.

Damien Rogers, Mauritian, ocean and nature lover he is the business development executive of Petro Consulting. His expertise in containing oil spills is guiding the group.

Harriet Patrizi, Mauritian, passionate about the sea, scuba diver, designer of Oceano Pearls jewelry inspired by the Ocean. Having grown up on the beaches of Pointe D'Esny, she is now actively helping to clean up the oil spill.

Diane Desmarais, Mauritian, has grown up in Pointe d'Esny. Passionate about nature, has always been active in environment issues in her area, organised a 2 year national campaign against littering, and includes advice of waste-reducing and plastic-free choices into her nutrition consultations.

Valéry de Falbaire, Mauritian, through the Young Change-Makers programme, he is making a difference in people's lives. He runs different programs that tackles environmental and social problems. Valéry is the founder of Precious Plastic a community-based initiative involve in Ocean protection.
