

## AMOUR ET ESPOIR ASSOCIATION AGAINST COVID-19

While COVID-19 was raging on the streets and in different countries around the world, Amour Et Espoir Association was working to support families in difficulty.

We made distributions of masks, food packs, fruits, cereals & biscuits, tissue paper, toothpaste and other hygienic products.

*We ensured that every children got their vitamins even while lockdown.*

We helped more than 1400 families and touched around 910 children around the island from Baie du Cap to Bambous as well as Floreal.

- BAIE DU CAP

*this gentleman doesn't have his hand and his two feet, he however was really happy to have his cereals as he has diaestive problems*

- LE MORNE

*Lots of families were really relieved as they got something to eat during lockdown.*

- COTEAU RAFFIN & COMPTESSE DE LAMARQUE

*We made distributions of masks made at the association, toothbrush and tissue paper in order to promote hygiene and COVID-19 safety measures.*

*We did not forget our friend trash cleaners who work hard every day to clean the yards. The association cared also to help these hard working people.*

*This family had nothing to eat when we were giving food packs. That distribution helped them in order to have something to eat that day.*

*While we are distributing, we are making visits to children's place and we learnt that they did not have a shower and a toilet.*

- CASE NOYALE

*Many families helped were those who did not get the help of the government or not covered by othe NGO's help.*

- RIVIERE NOIRE (LES SALINES)

- CARIDAS

*Many families that were helped were those who did not get the help of the government, were unemployed or did not had the financial support of the Self-Employed Assistance Scheme.*

**DELIVERING BREAKFAST AT HOME**

As every children were locked at home, Amour Et Espoir Association delivered breakfast at home as many families were unable to get a good breakfast.

## **WE DON'T FORGET OUR MOTHERS TOO**

We made also a distribution specially for mother's day, helping mothers that had children and that were not having any revenue at that time.

We thank every person, individual or group, who contributed to the smile of a person, who was able to soothe the hunger of those who didn't have one. Thank you also to the citizens who behaved properly and followed the instructions to minimise the cases of COVID-19.

### **Message from Bruneau Petite :**

I want to thank God that we were able to go on site besides COVID-19, that he protected us, he opened so many doors so that we could get help but also help others. That moment was really special. There were really special moments but also challenges on different locations where we worked. We saw that solidarity, either in Mauritius or from other countries that supported us. We observed when going on site many serious poverty cases. We're glad that we helped making a detailed survey so that we could work orderly on many sites and know the need of the inhabitants. We were helping and we gave with our hearts and we got their smiles, their happiness and their blessings. A big thanks to all of you, may us continue in this solidarity.

**THANK YOU.**
