TO WHOM SO EVER IT MAY BE CONCERN

This is to certify Ashlesh Haradan was diagnosed with Brain Stem Glioma who received Stereotactic Radiofrequency, Had Possible Pneumocystis Carinii Pneumonia, and subsequently Drug Induced ILD with Acinetobacter Lower respiratory tract Infection which from which he has recovered. He also has Pulmonary Thrombo-embolism and needs to continue Injectable anticoagulation. He has tracheostomy in situ for airway protection and will need continued medical/nursing care.

He is flying back to Mauritius. If the Mauritius Govt policy makes quarantine compulsory post landing in Mauritius from any other country, we would request that Ashlesh to be quarantine in any equipped medical facility.

Regards,
Dr Rohan Aurangabadwala
Consultant Pulmonologist
Apollo Hospitals,
Navi Mumbai.
